OhMyLook. Paris campaign / Photo projects

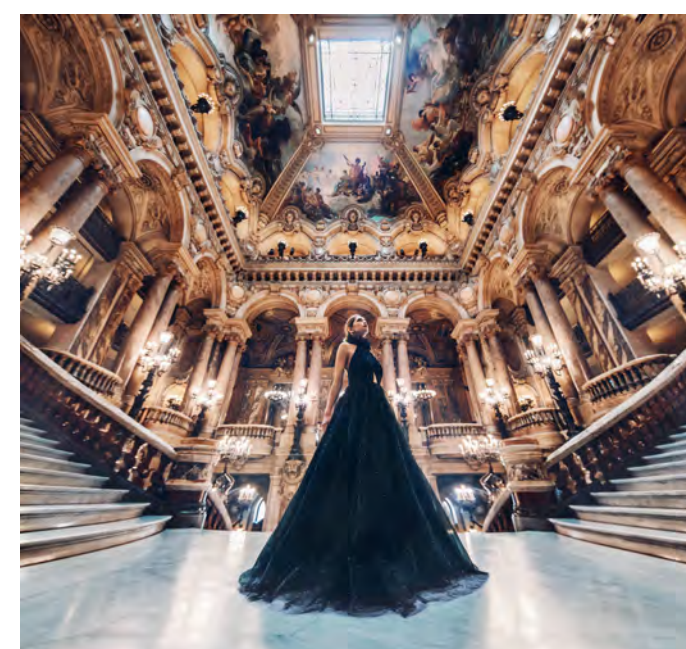

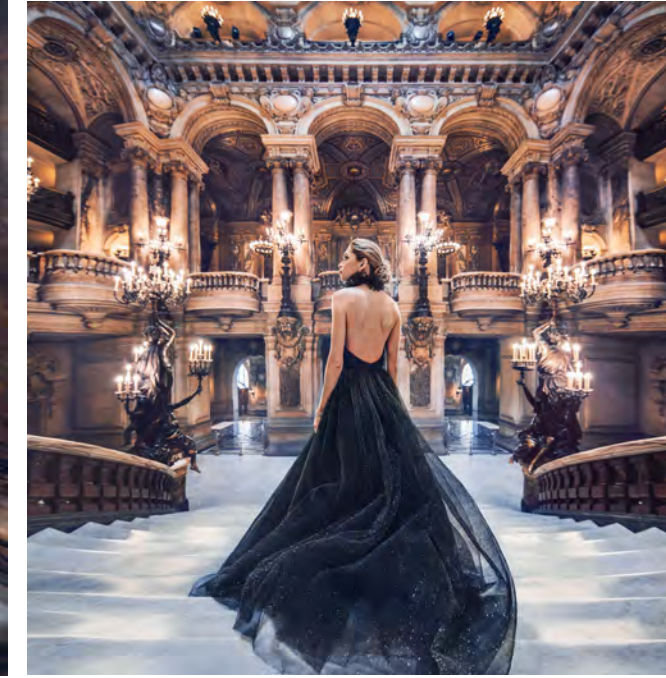

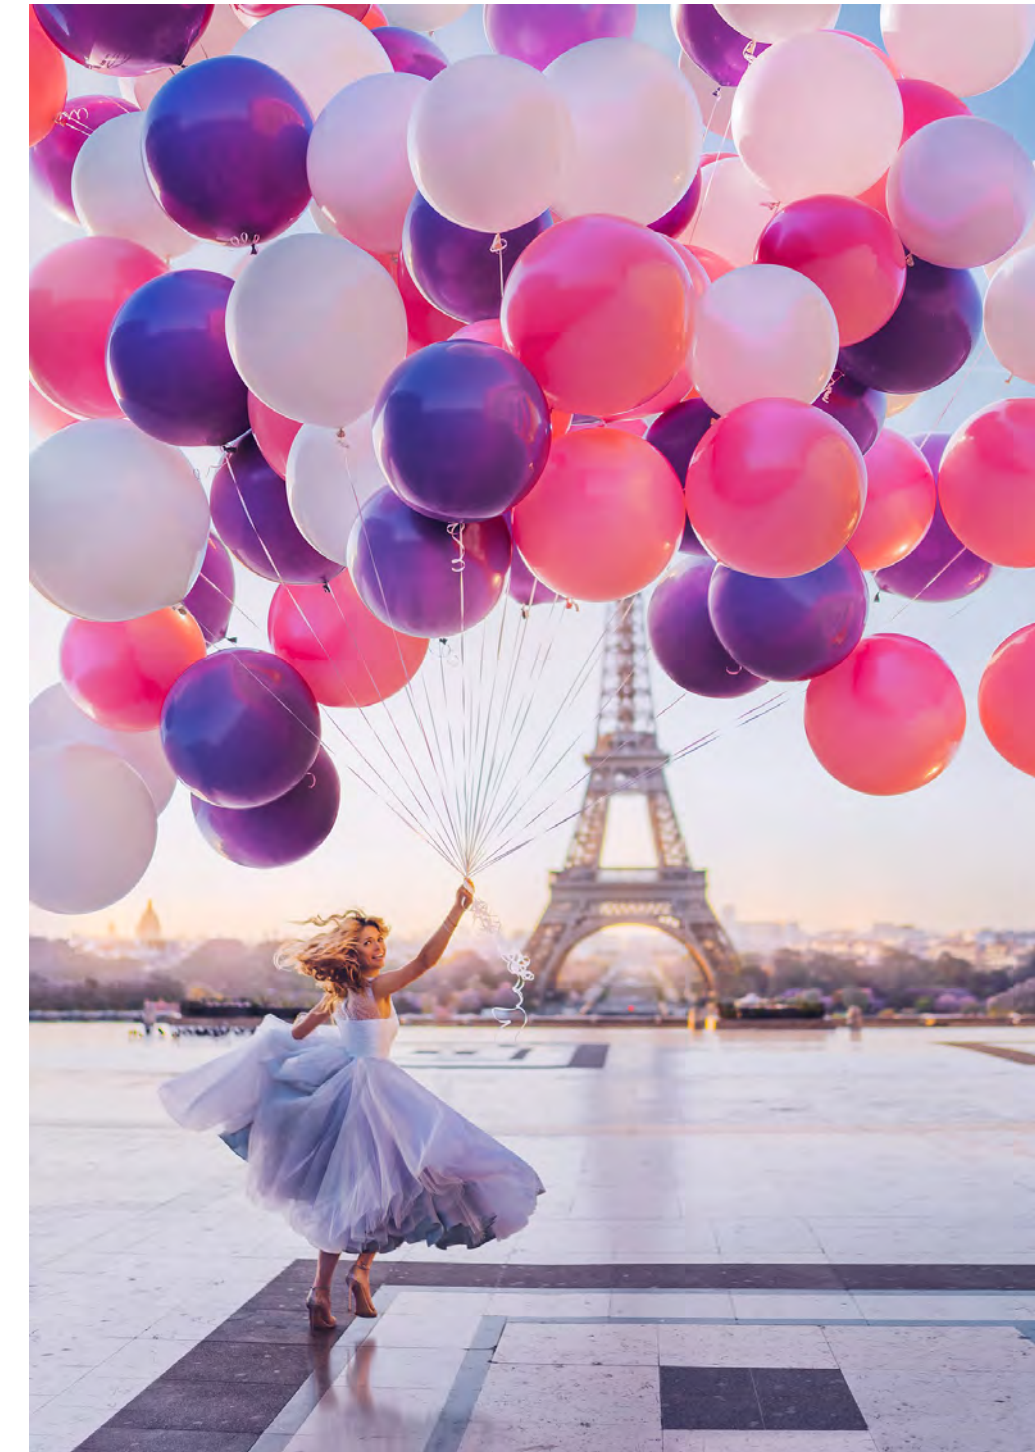

This project was organized in 2017 by Ukrainian dress rental service «OhMyLook». I created an idea that showed a woman in the role of a princess or goddess. Smart, Beautiful, Powerful and Sophisticated. This project has become a «starting point» for a global project «The Girls in Dresses»

Organization: OhMyLook, Kiev, Ukraine

Model: Vera Brezhneva, Ukrainian singer, television presenter and actress

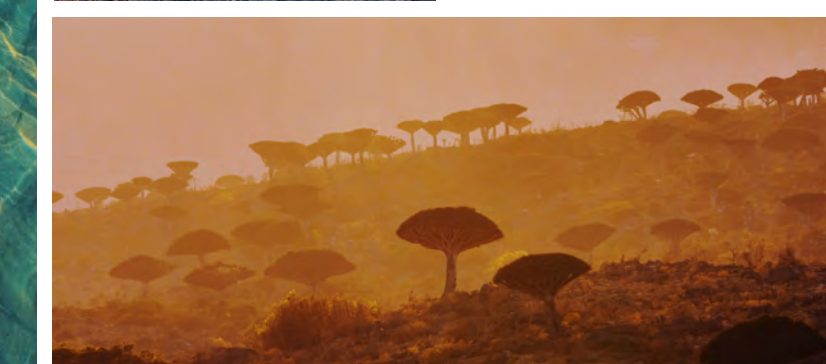

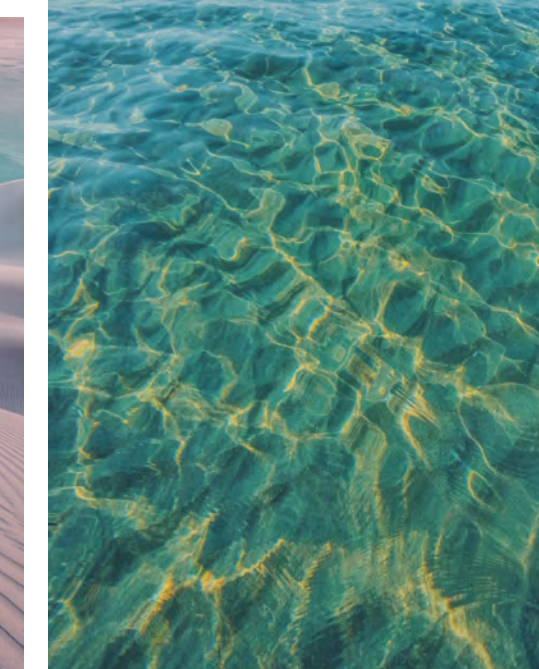

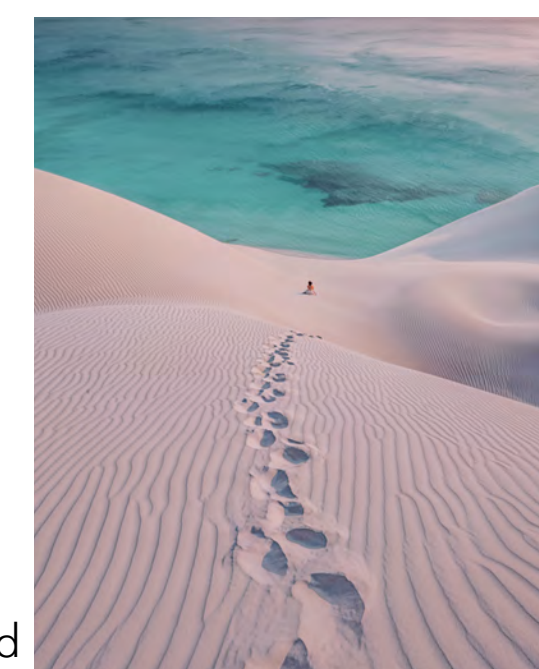

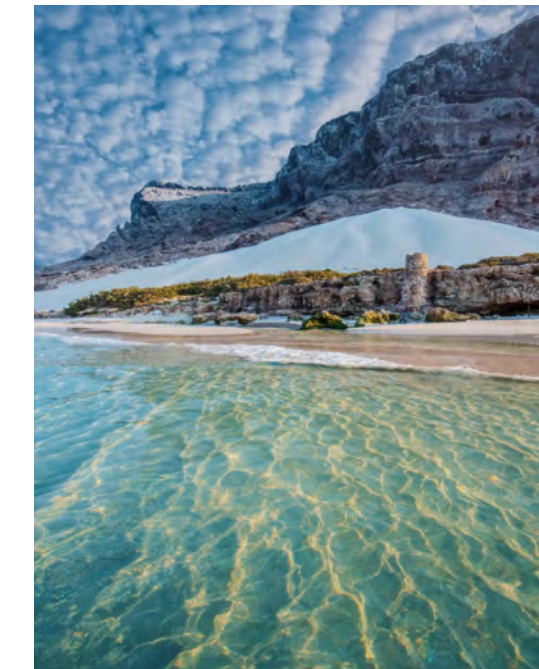

Location: Paris, France

Socotra Island / Photo projects

Socotra Island is the Lost Land. This small piece of the ancient continent is located in the Indian Ocean. A third of Socotra's plants are endemic and the most beautiful of them are the Dragon Blood trees. This type of tree is a relict, the same age as dinosaurs. Socotra Island is a UNESCO World Heritage Site. The population of Socotra was cut off from civilization for a very long time. They lived in caves, fished, herded goats 50 years ago. Very kind, sympathetic, hospitable and beautiful people inhabit Socotra. I was very interested in all these facts and I visited this island twice in 2021 and 2022, creating a whole separate project from photographs of Socotra.

hoboreeba Мечта последних пары недель: уехать в лес, и чтобы не было ни одной палки сотовой сети и ни одного вайфа. Иначе постоянно кто-то теребит. Или ты сам теребишь. А еще мечта попить чаю под яблоней и подождать, пока на тебя упадет запоздавшее яблочко. И...

hoboreeba Все лето мы провели с Финиками (Infiniti QX50 на фото). Куда только не ездили на них, забили мне всю память красивыми видами, теперь сижу и пытаюсь найти хоть чуть-чуть ее для дальнейшего творчества. После моего раскрашенного жучка финики стали настоящими пчучками. Сладкий!

hoboreeba История про машины: После того, как наш жучок встал на третьем кольце уже, кажется, окончательно и бесповоротно (ему 21 год), мы начали искать ему если не замену, то хотя бы временное решение. Взяли покататься infiniti QX50. Ну что сказать - Тимона поразила панорамная крыша. Он ее и закрывал, и открывал, у нее еще сеточка от грязи выезжает. Второе, о чем мне позвонил и рассказал Тимон - это проекция скорости и навигации на лобовое стекло. По сравнению хоть и с очень концептуальным, но

hoboreeba Так получилось, что я влюблена в Москву навсегда и безвозвратно. Неважно, что я влюблена еще в несколько десятков мест, но она - моя родная, моя красивая, люблю ее. Со всеми ее изьянами. Самый главный недостаток огромного города вы знаете - много машин. Остало много пробук и мало парковок, особенно
